Simple Email Service

AWS Miscellaneous Messaging Services

- Amazon Simple Queue Service (SQS) is a fast, reliable, scalable, fully managed message queuing service; using SQS, you can send, store, and receive messages between software components

- Amazon Simple Notification Service (SNS) is a fast, flexible, fully managed push notification service that lets you send individual messages or to large numbers of recipients

AWS Miscellaneous Messaging Services

- Amazon Simple Email Service (Amazon SES) is a cost-effective email service; with Amazon SES, you can send transactional email, marketing messages, or any other type of high-quality content to your customers
- You can also use Amazon SES to receive messages, call your custom code via an AWS Lambda function or publish notifications to Amazon SNS
